

# Welcome

Welcome to the 5th instalment of Waterford Walls International Street Art Festival, Ireland's largest Street Art event!

Waterford Walls was founded in 2015 with the aim of inviting local, national and international street artists to come together and transform Waterford's derelict and forgotten spaces into stunning pieces of public art. When the festival began, we had no idea how much Waterford Walls would grow, and in just 5 years we have been honoured to host some of the most talented street artists from around the world.

Each year we receive hundreds of artist applications from across the globe and a selection of national and international artists are chosen to represent a cross-section of styles, techniques and themes. Every year, new murals are painted and we try our best to keep as many of the existing murals as possible!

We would like to take this opportunity to thank every person and artist who has worked towards making Waterford Walls the event that it has grown to be. Without your help, Waterford Walls would not be possible and we are so grateful to each and every one of you who has given their time and energy to the festival over the last five years.

This year Waterford Walls is delighted to showcase over 30 Irish and International artists across the city, and we welcome you to Waterford for what we know will be an unforgettable experience! We operate a friendly and open event and encourage you to engage with our artists and crew whilst here.

We are delighted to be presenting the 5th Waterford Walls International Street Art Festival and we hope you enjoy your weekend!

The Waterford Walls Team

# Donate

Waterford Walls Festival is a free open air event that is managed by The Walls Project, a small creative team who work on this project year round to bring some of the most talented street artists from around the world to create something special in Waterford.

Each year, our team works tirelessly to secure funding and financial support from public and private sources to enable us to keep bringing the magic. It is no secret that this year our festival was placed in serious jeopardy and we would like to thank every single person who donated, sponsored, funded, attended a fund-raising event or otherwise helped to save Waterford Walls this year.

If you have enjoyed the artwork, attended any of the festival events or simply believe in what we are doing, please consider donating anything you can to help bring Waterford Walls back in 2020!

Simply visit the address below or scan the QR Code to donate...
